**Highlight reflects a change from the prior Regulatory Calendar.**

\* **Proposed Rules** contain notices to the public of the proposed issuance of regulations, and they allow an opportunity for interested parties to provide input. The date in the calendar above is when public comments are due.

**Interim Rules** are issued without prior notice and are effective immediately; the interim rule is designed to respond to an emergency situation and is usually followed by a final rule document which confirms that the interim rule is final.

**Interim Final Rules** are final rules having the full force and effect of law. They allow stakeholders to submit comments the agency will consider before deciding whether to issue a revised final rule or confirm the interim final rule as final.

**Final Rules** are federal agency final rules and regulations that have general applicability and legal effect.

**\*\*Rulemaking Proposals** generally do not have an effective date, except for the Dodd-Frank proposed regulations because Congress specified the effective date in the legislation.

**Guidance** is issued by the various regulators. Although a bank cannot be cited for a violation of law for not complying; nevertheless, a regulator can enforce the guidance through other means. The agency guidance included in this calendar are those that have action dates.
